MOHAMMAD ABDULHAKIM

Front-end web developer

@ contact@abomisr.com 📞 +201004796737 🌐 abomisr.com in abomisr ⌨ abomisr 📍 Giza, Egypt

EXPERIENCE

Front-end & Founder

Co-Student.com

📅 July 2022 – June 2023   📍 Egypt

- Developed and launched Co-Student, a multifaceted platform that combines social media and educational features to serve students globally.
- Implemented a distraction-free design to enhance the user experience.
- Overcoming technical challenges during the development process, such as debugging and troubleshooting.
- Working without a team to support and collaborate with during the development process.

HIGHLIGHTED PROJECTS

OS portfolio

Next.js, Typescript, TailwindCSS

📅 Mar 27 - May 7 — 2023

- Explore my website that looks and feels just like Windows 11!
- it offers an immersive experience complete with popular applications like Google Chrome, Edge, and Visual Studio Code.
- With the ability to customize the background, turn the site on and off, and even restart it, almost this website is unlike anything you've ever seen before. Discover it now!

POMATRIX

Next.js, Typescript, TailwindCSS

📅 Apr 25 - May 23 — 2023

- It is the ultimate productivity app that combines the Pomodoro technique and the Eisenhower matrix.
- With drag and drop task management, completed task tracking, and a clock-dependent Pomodoro timer, PoMatrix is perfect for boosting your productivity.

TouchShare (Social media website)

React, Javascript, TailwindCSS

- Intuitive Interface: The app has a simple, attractive design that makes it easy to use and visually appealing.
- Custom Categories: Users can create and customize categories for their photos, making it easy to organize and find content.
